*******IMPORTANT – PLEASE READ*******

We have been granted a very special pass to cross the Indian Reservation to get to the ranch. This will save you and us a 2 hour drive on ROUGH roads to camp as the alternative is to travel AROUND the reservation.

In order to cross through the reservation you must adhere to the following:

- 1) **You will need to be in plain clothes (NO CAMO!!)**
- 2) **Gun case LOCKED and placed in bed of truck. (if hunting with rifle or muzzle loader)**
- 3) **The bolt must be REMOVED and stored in the glove box of the truck.**
- 4) **Ammo will need to be in your duffle bag with your clothes NOT with the gun case or bolt. Guides will go over this with you before you head to camp as well.**

Your rental car will stay at the taxidermy shop for the week to stay safe. If you drive your private pickup it will also need to stay at the taxidermist studio, as the permit allows 1 truck per passage.

The roads into camp here are something we just don't want to try and give you directions on since you'll have no cell service for most of it.

My wife Karin is in the office (505-801-7500) when I am in camp. This is usually the best number to try during hunting season as I often don't have cell service. 505.860-3197 is my cell. Leave a message, I check often on arrival day, but again, I don't always have cell service. The office number is a better bet.
